WINNIPEG, Dec. 1.—(CP)—  
Manitoba's safety responsibility law protects motorists and pedestrians in traffic accidents, making everybody in the unsatisfied judgment fund went into effect today as part of the new law which aims to prevent accidents and enable victims to recover damages.

**PASSED AT THE LAST** session of the Legislature, the law concerns drivers even if they are not at fault in an accident; if they cannot meet their financial responsibility or their drivers' licensees and vehicle registration will be suspended, and license fees and storage charged against them.

Pedestrians and motorists not responsible for the accidents will which they are involved now will

In a better position to recover damages since the fund will provide protection against the responsible motorists who are without public liability insurance and other motorists meet a judgment.

**THE LEGISLATION** makes Manitoba the first province to implement a law which provides that financial responsibility is not shown. In 1946 there were close to 90,000 motor-driven vehicles of which 69,000 were passenger cars and 20,000 trucks.

The fund, to be administered by

the provincial treasurer, will be created by the levying of a \$1 fee on all motor drivers until it reaches \$175,000, an amount which would be available in 1947.

An application for payment out of the fund can be made when a judgment is obtained and it is found that the defendant is unable to meet his obligation.

The plaintiff's application is accepted by the court, he may collect up to \$3,000, excluding costs.

**THE ACCUSED SOLDIER** was tried for general court martial in the field in Italy in February for the murder of Pie "Lucky" McGivern, widow of Lord Edward Fitzgerald, on April 10 or November 1, 1944.

"The court martial after due deliberation found the accused guilty and sentenced him to suffer death by hanging," said the court. The court martial was duly reviewed and confirmed and accused was informed of his rights. The execution took place at Avellino in Italy at 8 o'clock on the morning of July 5, 1945. The pronouncement and execution were carried out in accordance with army procedure."

**THE STATEMENT** did not give the residence of Pringle, but suggested he had been in the area of New Waterford, Cape Breton, N.S. This information had been with the defense department, but it was not ascertained whether his wife was with him at that time.

Pringle was found in the St. Lawrence River, 30 miles below Quebec City. The ship, bound for Quebec and Montreal, bound for the St. Lawrence. Unless it is refitted within the next week, it probably will remain in the harbor.

**MOUNTAINOUS SEAS** pounds the Nova Scotia coastline as the mountain of the province dug itself into the ocean, causing tidal surges that caused shipping damage and snowed up many secondary highways.

On Nov. 28, a 100-mile stretch of the day-long storm, Lockport was hardest hit, three 36-foot power poles were broken, and a fourth bridge damaged.

## UNRRA Official Denies Report On Mass Firing

WASHINGTON, Dec. 1.—(AP)—Herbert H. Lehman, director-general of the United Nations Relief and Rehabilitation Administration, last night issued a statement in connection with a story carried by The Associated Press, Thursday from Herford, Germany, and subsequently corrected. The story was released by the Canadian Press to its members, newspapermen.

**THE STATEMENT** said in part: "It is unfortunate indeed that UNRRA has been accused of having to defend itself against an erroneous press report from Berlin which it must be noted in credit to its preoccupation which carried it, was immediately corrected."

In the original dispatch, for which there was no foundation in fact, said the UNRRA had "dismissed, suspended or terminated the services of 600 of its workers accused of diverting relief supplies into the black market." It was also reported that "a majority of the workers involved were Americans and British."

"WE HAVE INVESTIGATED the matter thoroughly. The facts are, in these cases, General Morgan, chief of our Operations in Germany, is now completing a reorganization. On the last day of November the services of all UNRRA workers have been terminated for various reasons, including incompetency,舞弊, lack of reliability, and other causes. These workers were chiefly British. Some of them were chiefly Canadian nationals, employed on the

a distinction between classes in the tax system," said Mr. Isley. "You cannot say, for example, that we are going to avoid charges of discrimination if we will have to go to very short notice."

It may be that we can take the primary production of the farmers and fishermen and put them on one side of the fence and then put everybody else on the other side. But the farmers are going to have to fulfil claims and the fishermen consider they are on the wrong side of the fence. That is something we will have to face."

Mr. Isley said the statement after saying that:

1. Consideration would be given to the fact that employers deduct 10 per cent income tax at the source so that employers would not have to pay tax twice.

2. The government is considering withdrawing the special income tax consideration given to certain categories of workers both by their husband and wife are working.

3. It would not be a good thing to return to the gold standard in the sense that it was known to have been in the two great wars.

4. The price of silver has been much consideration but that same statement "would appear to me to be hardly the wise thing to make."

**HOPKINS DURING** continued his discussion of the house he brought down Oct. 12. Earlier the house had considered civil estimates of the transport department and the Royal Canadian Mounted Police.

Chief Constable J. C. Chevrelle stated that he was not yet in a position to make a statement on the size of Canada's post war military budget.

At the night sitting the study of budget reductions was continued. All the main details of income taxes were passed along with practically all those dealing with excess profits tax.

**WHEN THE HOUSE** opened Labour Minister Mitchell disclosed that a strike settlement plan, rejected Thursday by workers at the Ford Motor Company plant, would be submitted to the government for the appointment of an arbitrator to decide the dispute.

Undermining the plan, however, was the fact that the government would consider allowing farmers to specify their wives as tax units which could be offset as expenses.

Mr. Isley said that the decision of the court that the country would have to pay for similar privacies. The government was considering revoking the special consideration given married couples working during the war.

Prime Minister Mackenzie King said that the weekly meetings of the defence committee of the Dominion-provincial conference were "most harmonious throughout."

**LATER MR. MITCHELL** said he informed the committee Thursday that they had agreed to bargain and wage control legislation under the War Measures Act would have to be continued for a definite period, possibly a year or more.

Defence Minister Abbott said that he was "master of his

It is to be shipped to Edmonton by rail and will be housed in a room where the primary producer was given a little different treatment.

**THESE ARE BETTER** case for primary producers than there is for anybody else because of the damage caused by the market conditions, said the minister.

"In the past market conditions have not been at all steady, or at times they have been so bad that there has been no profit."

## Major and Minor Notes

By John Oliver

**WITH** the appearance at the Empire theatre on Wednesday night of Ricardo Odopodoff, violinist, the Women's Musical Club Celeste Concert Series reached the halfway point. There will be a pause until Paul Robeson sings on Monday, Feb. 4. Then there will be recitals by Jeanne Faure, soprano, and William Kappell, pianist, and the series will be over. The bunting of the series certes this season has been unavoidable due to the difficulties of travel, with armfuls of travel arrangements on both sides of the international border. However, the performance given by Mr. Odopodoff yesterday was one that will tide people over until February. Indeed with all the rest and recuperation to those who have preceded, an who will succeed him in this year's series, it is likely that Mr. Odopodoff's contribution will prove the highlight.

**HE IS** one of the most popular artists to have appeared here, and the amount of enthusiasm for his playing was easily appreciated. The friendly feeling manifested was reciprocated, as he spoke enthusiastically and with genuine pleasure about his home. Abe Fratkin, conductor of the concert, will present a program by the former, for the benefit of school children. Discussion took place on the stage, and the final plans have not been formulated, there appears to be no objection to the idea. A date will be set to do this. It is likely that Abe Fratkin, conductor of the concert, will present a program of light classics that would be well received by classes, with teachers in charge. This will be the first time given by the Edmonton Philharmonic Society and if successful no doubt will be tried again.

**THE THIRD CONCERT** in the regular Philharmonic schedule will be on the night of January 11. Abe Fratkin, conductor of the concert, will present a program of the composer's military symphony and that of Brahms' Clarinet concerto. Nancy Tigne, young soprano, will be the soloist and will be heard in the "Hawaiian Waltz Song." Also on the program will be the piano duet of Nancy Tigne, young soprano, and Manuel Ponce's appealing ballad, Estrellita.

**UNDER THE BATON** of Mr. James B. Carmichael, rehearsals for the annual Civic Open Society Concert will be held on Dec. 8 to eight concerts with six in the regular group, and two added. Departing from his usual plan of featuring a single solo artist, he has mentioned none, stating that he had not yet received tentative lists from New York.

**IN GENERAL** the situation appears grim. Travel remains a problem. With foreign artists beginning to arrive, the Canadian government has issued a general ban on travel to Europe. With Metropolitan Opera and network contracts, either feel they should stay closer to home, or are afraid to leave. Many artists are not available at the present time with many artists having mentioned none, stating that he had not yet received tentative lists from New York.

**THE HOSPITAL LEAGUE**, which has been instrumental in concert field, immediately to raise funds for its valuable work at the children's ward of the University Hospital, is bringing to the Empire theatre on Jan. 18, the world famous pianist Josef Hoffman.

### To Play Here

mann. He is a child prodigy who made good. He was born at Craiova, Poland, in 1926. The son of a violinist, he began to play at the age of three. When he was six years old he played in public. When he was seven he was invited to play at the Royal Albert Hall. In 1938 he gave 32 concerts in the United States. After that he studied for two years with his mother and made his debut in Dresden, Germany, and has toured Europe at intervals since that time. He revisited America and Canada and has made his home on the side of the Atlantic for many years.

**FROM BEING** a sensational prodigy he developed into a fine pianist of great power, virtuosity and charm. His technique probably stands unsurpassed in this generation. In 1924 he was appointed director of the Royal Conservatory at Philadelphia, a post which he held for several years. He has composed many pieces and has made his home on the side of the Atlantic for many years.

velt. He, of course, was not down to Moscow for the Crimean War, though it is generally rumoured that he did. He may be invited to succeed Lord Halifax in Washington. Though he is generally rumoured to remain in Moscow, there is little talk of his going to the public grounds, where he would feel compelled to accept a Washington appointment.

Other memories — violent and poignant — are evoked by the suite. It was on the large circular platform on November 7, 1927, Trotsky made his last public appearance in Moscow. He was the guest of honour at the celebration of the tenth anniversary of the October Revolution. Trotsky was the chief speaker, and Stalin from the official party which was to take the salute in Red Army.

The Junior Mission Circle of McDonald Baptist Church will hold a sale of aprons in the Market Square buildings on December 8. The Circle have secured 45 yards of cloth with which to make the aprons.

### TODAY'S MESSAGE

#### Christian Love

ALL human beings must be treated as God's beloved children. That is the law of Christian love. It means that though we may have no natural liking for or may, indeed, heartily dislike, a particular person, we are nevertheless obliged to show him the courtesy and consideration that is always the hallmark of the truly Christian man or woman.

These two words—courtesy and consideration—are synonymous with charity. Charity, in this sense, has not the narrow meaning associated with almsgiving, but embraces the virtues of kindness, understanding, compassion, and forgiving. Charity is supremely demonstrated by Christ during His stay on earth.

The genuine Christian seeks to imitate Christ. His attitude toward others is determined by the fixed principle that as he would have God treat him, so must he treat his fellowmen. His guiding thought is that every kind word, every courteous gesture, every unselfish service directed towards others is also an act of personal homage to God.

The human heart is made noble by kindness. It is haloed by every unselfish thought or deed. The greatest men of any age are not those who have reached the pinnacles of fame or fortune, but those whose hearts were enlisted in the cause to become vessels of comforting and encouragement for others.

The brightest pages of history are not those filled with dramatic tales of great achievements, but the humbler pages writ by the great lovers of God who paid court to Him in the persons of the ragged and the needy; who saw in the tears of the lonely, and the disconsolate a call to pity and understanding for His human sake.

### Romance of Our Hymns

Read by the glorified and compelling voices of Moody and Sankey, 40 years ago. "The Mistakes of My Life Have Been Many, but None So Many As This," sang Mrs. Blanchard when she returned home from a recent tour to sing Urania Locke Bailey's spirituals, then almost unknown to us.

By KATHLEEN BLANCHARD  
At all accounts Ira Sankey's voice was most moving and compelling. The hymns he used at his services were chosen with special care for the event, to help win the hearts of the people to God and to induce them to recognize the names of God in everyday life. That was the great objective.

When Moody read the Lessons of the Bible to the public, he did not speak into the desk, but held his hand high over his head, so that his voice would go out on the audience.

On the return of the evangelists from the Old Country, they opened a series of meetings in Boston.

During that visit they were inundated with the leading voices of the day, who on one occasion asked Sankey what solo he had selected to sing.

"Please sing 'The Mistakes of My Life Have Been Many,'" said he. "It does indeed," answered the other, "for ever more I have tried to ignore God in all my affairs. But at last He took away my only child, and I have brought me to know the King of Kings and I have now given my life to His service." "Please sing 'The Mistakes of My Life Have Been Many,'" said he again. "I am indeed," answered the other, "for ever more I have tried to ignore God in all my affairs. But at last He took away my only child, and I have brought me to know the King of Kings and I have now given my life to His service."

The words of the arraigning poem were written by Mrs. Ursula Locke Bailey, and printed about 1871. They soon came to the notice of Ira. D. Sankey, who added them to his repertory of songs at many a crowded meeting—until with marvelous results.

The mistakes of my life have been many,  
The sins of my heart have been more.

And I can see no cause for weeping,  
But I'll knock at the open door.

I know I am weak and sinful,  
It comes to me more and more;

But I'll knock at the dear Sabbath school  
And get some rest and comfort.

I'll enter the open door.

I am lowest of those who love Him,  
I am weakest of those who pray.

But I come at His bidding  
And I will not say nay.

My mistakes His free grace will cover.

My sins He will wash away,  
And the stain that shames and fairishes  
Shall walk through the gates of day.

The mistakes of my life have been many,

My spirit is sick with sin.

And I scarce can see for weeping,  
But the Saviour will let me say.

## 30 Choirs, 1,000 Members to Participate

### Glorious Festival of Yuletide Carols and Community Singing Again Arranged by Rotary Club

**SINCE THE FIRST** of March this year the group has sent out more than 1,000 parcels of literature to teachers of the Christian faith in every country in the world.

In Mr. Gibson's words, "We started our campaign in 1943 and at that time members took pledges to donate so much money a year to help send literature to teachers of the Christian faith in every country in the world."

"WE DECIDED TO SAVE ALL the literature we could, such as Sunday school papers, books, pamphlets and religious literature and send them to missionaries, and so establish a contact with them, so as to find out what their needs are and also get some idea of their needs."

To extend the group's efforts, Mr. Gibson's group has invited other clubs and organizations to participate and asked them if they would mind sending him any of their bulletins or literature for distribution.

"WE DECIDED TO SAVE ALL the literature we could, such as Sunday school papers, books, pamphlets and religious literature and send them to missionaries, and so establish a contact with them, so as to find out what their needs are and also get some idea of their needs."

The PUBLISHER ALSO enclosed a note saying that he would be only too willing to help. The group has invited the missionaries, if Mr. Gibson would supply him with the addresses and the price.

Since then Mr. Gibson has created a large number of contacts with publishers and having them do the same thing. One of these firms published in New York.

Mr. Gibson's group has received the names of various countries.

ON EACH OF THE THREE nights last year McDougall Church, which seats about 1,500 persons, was packed to overflowing. Each night a great number of people were turned away each night. Through the use of a public address system, the organist and street were able to join in the community singing. The club decided to increase the number of choirs to accommodate more people who enjoy singing the Christmas favorites.

It is hoped to use the public address system again next year so that people unable to get into the church may take part in the singing.

THE CLUB PLANS to have the choirs sing in the church and the proceeds will go into the rotary community service fund.

Arthur P. Newcombe is general chairman of the committee and will conduct the community singing.

## Princess Elizabeth Participates in Graduation Ceremonies at Sandhurst

Princess Elizabeth is shown during a visit to the Royal Military college, Sandhurst, where she took the salute at the passing-out parade of an officer cadet training unit of the Royal Armored Corps. Here, the princess presents the Sam Browne belt to Officer Cadet J. D. Carter.

Drivers of American ambulances in England had an opportunity to talk to the princess during a royal inspection. The ambulances, manned by British women, were supported entirely by contributions of Americans living in Britain. They did outstanding service for over five years.

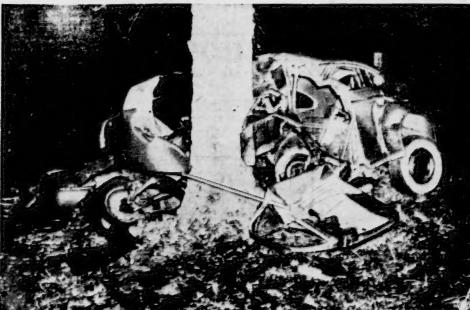

Barney Ross, hero of Guadalcanal and former boxing champion, comely Cathy Ross, above, is featured in the film "Bamboo Blonde." The former Catherine Howlett of New York, she married the famous Japs-scraper in 1942.

A transparent "blister" canopy from a B-29 makes a fine bathtub for little Jean Clair Bretherick, pictured with her mother, Mrs. Homer L. Bretherick, in their Atlanta, Ga., home. Inset shows a weatherproof davenport built from salvaged B-29 parts, by William Davis, Bell Aircraft worker. It has duralumin frame and broad, plexiglass arms.

### Five GI's and Girl Killed in Auto Crash

Five service men recently returned from overseas duty and a young woman companion were killed when their car crashed into a tree in a dense fog on a Philadelphia highway. The motor of the car was thrown more than 100 feet from the crash.

### More Than 6,000 Jam Bronx to Hear Boy Pray

Dark-eyed Joseph Vitolo, 9, of the Bronx, N.Y., who claims to have seen a vision of the Virgin Mary, prayed for the 15th and last time, Wednesday, November 14. More than 6,000 persons jammed a vacant lot in the rain that night to listen to Joseph pray. Aged and infirm persons, some of whom came in a three-bus caravan from New Jersey, were in the crowd.

### Hairdressers Have Time to Spare

Hairdressers in the strike-bound city of Windsor, Ont., are washing their hands and washing their own hair. They have nothing on their hands but time, nothing on their minds but worry, and nothing to do but make each other beautiful. They have no customers. If the wives, sisters, sweethearts and daughters of Ford strikers need beauty for morale they are manufacturing it at home, not paying professional operators. Nearly every beauty shop in the city has noticed a decided lull in the usual pre-Christmas rush.

Evidence that Hideki Tojo's stomach is completely healed of the self-inflicted wound is seen in the photo above, where the former Jap war premier does a two-fisted job of putting away a meal at the Omori Prison Camp.

### Attlee Sees Army Paper

Rt. Hon. Clement Attlee, prime minister of the United Kingdom, looks at a copy of the London edition of the *Maple Leaf Canadian Army* newspaper during his press conference in Ottawa. The prime minister is shown the copy of the army newspaper by Sgt. Tom Foley, staff writer with the Canadian *Maple Leaf* bureau at Public Relations, NDHQ. Sgt. Foley was formerly with the *Lethbridge Herald*.

### Striking Builders in London Hold Parade

A coffin with a dog sitting on it was carried by demonstrators during a parade of 150,000 building operatives through the west end of London. The striking builders are demanding a 40-hour week and three shillings an hour for craftsmen.

### Boys Brave Gorge to Save Dog, Then Need Rescuing

Death-defying trip into the Niagara river gorge was made by M. Catherwood and Roy Healey to rescue a dog which had gone down chasing a pheasant. When they were unable to get out, alarm was raised by G. Catherwood, left. M. Hill, police and firemen rescued them and the dog.

### "Give Up A-Bomb's Secret," They Urge

Testifying before House committee hearings on the May-Johnson bill for government control of atomic energy resources and secrets, the men above, representing the younger scientists involved in development of the atomic bomb, urged release of atomic research from the present strict secrecy. They are, left to right: Dr. H. C. Urey, Nobel prize winner, of Chicago University; Dr. Leo Szilard of Chicago University; Dr. L. B. Borst, chairman of the Oak Ridge, Tenn., group of atomic scientists, and J. C. Stearns, Washington University of St. Louis, Mo.

**A**ND so the mighty have fallen! Calgary's Stampeders apparently took just about everything in the old chuck wagon at Saskatoon Elks last night and so the Hub City boys should be either completely subdued or have blood in their eyes when they shake out arena ice here this evening.

Virt of Saskatoon team marks another epoch in senior hockey in this city. The Elks, like the memories even of Shek and of days when such characters as Neely, Groat, Harkness, and George Hainsworth had their names on display.

Ruth Mullin's flyers dropped a 2-0 decision to the Elks on the Littler's home ice Nov. 15 in their only other league meeting so far, but the two teams will meet again. Don Watt will be on the Edmonton program for the first time and Jack Delong, who has been a mainstay wing for the Barrie Carling Line, will be Ab Newson's initial home star.

**I**N TODAY'S Canadian Sport Snapshots, Alan Harvey refers to the suggestion of H. L. Keenleydale, Canadian minister of health, that the Royal Canadian Amateur Golf Association should invite one or two tournaments to Canada next summer. He points out that this would be a good idea for Nick Winkels of Burlington, Ontario, participated in the recent title play at St. Andrews.

Ernie Morridge, The Edmonton Bulletin correspondent at Lloydminster, looked in last night. Ernie, always up to date on what's where in the world of hockey, advises prospects are excellent for the remaining months of the season which includes Vegreville, Vermilion and Lloydminster. He also adds that the Stampeders are expected out with the Border Town sexies, mentioning among others George MacLennan, Frank Spencer and Gordon Bufford, all returning from overseas—certainly a start.

**C**ANADIAN JUNIORS on a leave tonight for Vancouver on a heavy assignment which will mean four games in five days, are due back on Tuesday and Thursday nights, and after a Friday exhibition in Vancouver, will play the Natives for a third game with the Pacific Coast League leaders on Saturday. "Tailspin Tommy" in the City

## Daring Dirt Track Auto Driver Planning New Speedway Feats

By JACK DELONG

The fastest "thing" on wheels may next spring roar through Edmonton a hairy, high-speed race against time if Charlie "Tailspin" Boggs, champion dirt track auto driver, now in the city, is able to carry out his plans.

**BOGGS' WAYS HAVE FOLLOWED** a life of thrill, spills and hair-raising adventure for most of his 30 years. He is now operating a fish camp-type motor home at the south shore of Lesser Slave Lake.

Next May he plans to compete in the second annual national auto competition, the 300-mile Indianapolis derby, with first prize stakes valued at \$10,000.

After that if he can obtain permission from military authorities to plane to drive the same car from Dallas, Texas, to Mexico City, a distance of 7,000 miles.

"I WOULD ATTEMPT to make the record run in a single day, racing and driving in short four-hour shifts," Tommy explained recently.

The reason that Boggs feels certain will be good enough in the famed Indianapolis speed classic next year possesses a revolutionary type of motor developed with the Wehr rotary valve. The valve

CHARLES T. BOGGS

cost a million dollars and 46 years of research to perfect, the driver states.

**I BELIEVE THAT THE** trip I am making to Mexico Highway from Fairbanks south will give Boggs a great deal of valuable publicity.

It would prove the feasibility of the new car and possess a revolutionary type of motor developed with

the Wehr valve wonder car has already traveled at 182 miles per hour in a test run over a circular track.

**BOGGS ESTABLISHED** a world record for dirt track at South Bend, Indiana, some years ago when he drove his car around the half mile track there.

In addition to his auto racing, Boggs is a pilot who has had a plane stunter, walking on wings of planes, changing from plane to plane in mid-air and making daring parachute leaps.

He abandoned plane stunting after a narrow escape from death while attempting to land his plane in the U.S. Army in April of 1944, when both wings were sheared off the aircraft while he was passing under a bridge.

**HE ALSO GAVE UP** plane stunting when he had a frightening experience at a county fair.

It was on April 2, 1942, that Boggs took off from Chanute Field, Illinois, in his cockpitless test plane, a single-engined X.C. 10 army monoplane.

It was heavily loaded with baggage for the purpose of the test.

"I got off the field but thought

it was time to alight so I put my altitude. I couldn't get above 15 feet."

He flew along the river valley and

there was a steel bridge right in

front of me. I knew I couldn't get above it but there seemed to be room for the plane to go under.

"I was wrong."

The PLANE HAD A WIND screen of 45 feet. The bridge abutments were only about 40 feet apart.

"I was beneath the abutments and caught both wing tips and off they came clean."

"I was thrown through the windshield into the water. My only injury was a cut above my eye and a chip off my cheekbone."

His stunting in planes stopped him from becoming a pilot at Salina, Kansas county fair.

"I was changing from plane to plane when I heard a roar above the grandstand. I had just stepped from one plane over to another and was about to jump when the second plane hit an air bump and dropped off a minimum."

**AS I PLUNGED** downward I was thinking of the last time I was flying strut, hanging head down.

"My pilot realized what had happened and he told me to hold on, which enabled me to crawl back on the wing. I just hung on for 10 minutes until he had time to get me back into the cockpit. I was just think I was dead. I was sure of it."

For his daredevil feats the airman became the character of "Tailspin" Tommy.

"I NEVER REARED ANY FINANCIAL CHARGE" from the character of Tailspin Tommy.

"I got off the field but thought

it was time to alight so I put my altitude. I couldn't get above 15 feet."

He flew along the river valley and

there was a steel bridge right in

## Newest Plane

This North American aircraft, the P-51, is the first twin-engine all-purpose built in the U.S. It is a combination fighter, bomber, fighter-bomber, night fighter, and transport. It carries two pilots to reduce the problem of pilot fatigue to a minimum.

ed with the Greek air force during the early part of the war and was credited in action. He flew a Hawker Hurricane to safety from Crete just after the Germans came into complete occupation of the island last year.

Too old for air force command when he came to Western Canada he worked on construction of the Alcan highway, more than two years.

**LIKES CANADA** and hopes to make his home here permanently.

Last fall he was officially started at the Edmonton Model T Derby at the exhibition grounds.

## Service Club To Hear Talk On Recreation

Aspects of health and its maintenance through the medium of recreation will be the theme of an address by Prof. Maury Van Vliet, director of physical education at the University of Alberta, when he speaks to members of the Lions' Club Thursday at their noon dinner meeting in the Dominion hotel.

**GYRO CLUB MEMBERS** will meet for their usual club dinner at 6:15 p.m. Saturday at the Macdonald hotel. Alfred Noak will be chairman. H. L. Hammond and George Tweed are in charge of arrangements.

Dr. C. O. Goye, director of the Goye Club, will speak to members of the Kiwanis Club Monday evening at 8 p.m. at the Kiwanis Club.

High Commissioner for New Zealand, Sir Alan David Wilson, High Commissioner for New Zealand in the Macdonald hotel.

Robert McLean will speak on "The School Situation in Edmonton" delivered by Dr. S. Sheppard, general superintendent of public schools, when there meet Tuesday noon for their club luncheon at the Goye Club.

**Y'S MEN'S CLUB** dinner meeting is held Tuesday at 6:15 p.m. in the YMCA. Program for this week is a talk by Dr. W. W. Cross.

Kinmens meet twice monthly on Fridays, at 6:15 p.m., in the Macdonald hotel. Next meeting will be Dec. 22.

**January House** Opening Unlikely

Hopes for January opening of the legislature were not so bright as the parliament building here Friday following news from Ottawa that the executive committee of the Dominion provincial conference had adjourned until Jan. 28.

Premier Ernest Manning is a member of that committee and would therefore have to be away from Edmonton just about the time it was hoped to call the session.

It will probably also be necessary for him to be accompanied by the ministers who are now with him at the executive committee meeting, Dr. W. W. Cross, minister of public health; Hon. A. J. House, minister of education; and Hon. N. E. Tanner, minister of mines and mines.

Proposed to open the new Legislature if possible earlier than Jan. 22, when it did not open until Feb. 22 was in deference to the wishes of the members who are easier to get back to their lands for seed-

# The ROAD AHEAD

By Capt. HARPER PROWSE, M.L.A.

THERE is a growing feeling, in many quarters, that the government should institute immediately a large scale system of public works in order to provide jobs for the men coming back from the forces. Before any of us start lending our hands to the pressure groups who would force this action upon the government we would be well advised to stop and do a little serious thinking about it.

## A THIEF

**C**HOCOLATE is one thing the Teenie Weenies very seldom have. All the little folks are extremely fond of it, and when they are fortunate enough to find some they store it away and use it sparingly. One chocolate cream will last them for a long time, and when the Cowboy and the Turk found a huge chocolate cream one day, there was much rejoicing under the rose-bush where Teenie Weenie town stands.

The General had the Cook cut off a large piece as big as a nickel, and each Teenie Weenie was given a portion. The rest was stored away for future use, and the General gave strict orders that no one should touch it without permission.

The Dunce, who likes chocolate even better than Teenie Weenie doughnuts, began to figure out a way to get some. One day the Lady of Fashion thought it would be nice to have a Teenie Weenie chocolate cake and she and the Cook set to work making one. The Cook went down into the Teenie Weenie cellar and brought up the chocolate cream.

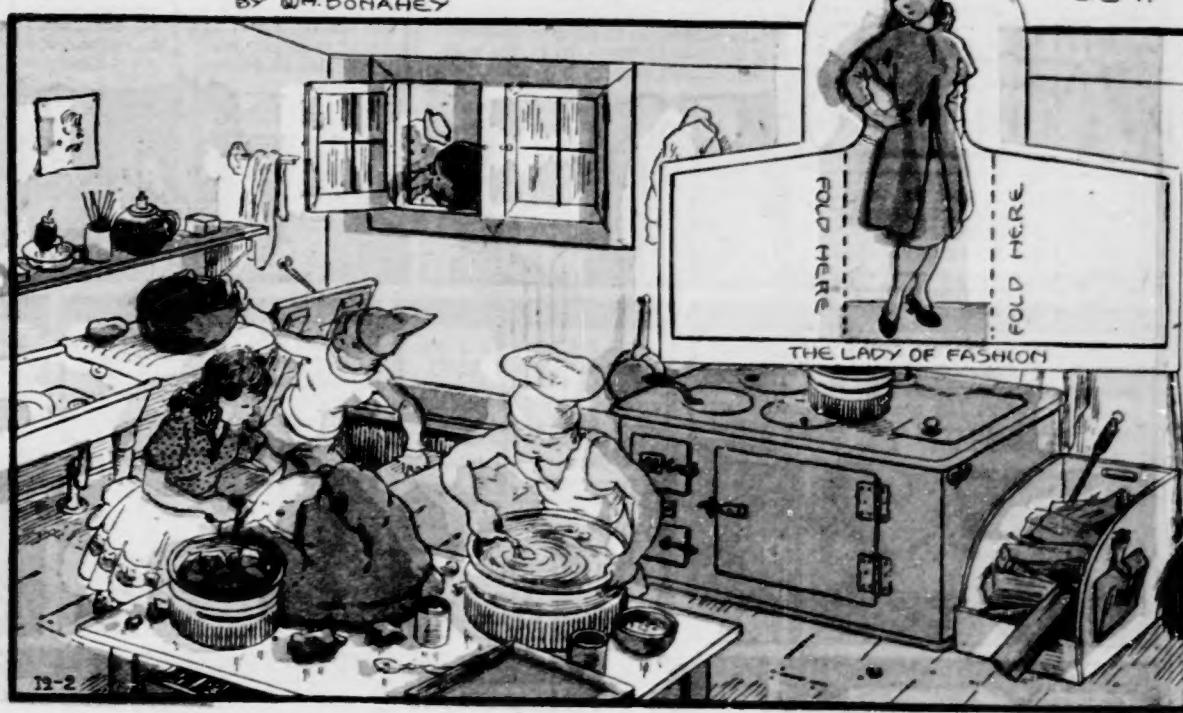

Then while the Lady of Fashion cut off pieces of chocolate for the icing, the Cook mixed the cake batter in a metal bottle top.

"We'll use plenty of the white cream inside the chocolate for the cake filling," said the Cook. "That will make a really fine cake."

While the Teenie Weenies were working on the cake, the Dunce peered through the kitchen window. He saw an acorn bowl filled with pieces of chocolate sitting on the sink and he also noticed that the trap-

door to the cellar was open. The Teenie Weenie cellar, where the little folks store most of their food and vegetables, is deep underground and there is an outside opening hidden under some ferns and bushes. The Dunce, who usually keeps out of the cellar because it is dark, decided he could open the door, sneak through the tunnel which connected with the kitchen and steal a piece of the chocolate on the kitchen sink while the Cook and the Lady of Fashion were not watching.

He pried open the outside door with a hairpin and made his way through the tunnel to the kitchen opening. Slipping quietly up the steps, he was just about to grab a piece of chocolate when the Cook saw him. The Cook told the General, and the Dunce was sent to bed. He was not given his share of the chocolate cake and for a week he was not allowed to have a bite of dessert—not even Teenie Weenie doughnuts. That was rather severe punishment, but stealing is a thing the General will not tolerate.
